- Any [Home Office fees](#) for making the application. There are standard application fees and in some cases an additional fee can be paid for a priority service. You will pay either or both of these to the Home Office or UK Visa's & Immigration directly online as part of the application process.
- [Immigration Health Surcharge](#) – this is payable by non-EEA Nationals, on all visa applications made from outside the UK to enter for more than 6 months but not permanently and for all immigration applications made within the UK (except for permanent residence). You will pay this directly online as part of the application process.
- Interpreters' fees, if required, from £28 to £40 per hour. These are estimates and depend on the language and availability of interpreter. You do not have to use a professional interpreter if you are able to bring a friend to assist.
- Translation of any foreign language documents into English before submitting. These are typically based on the number of words to be translated. The rates depend on the language and type of document and can vary from £100 to £180 per 1,000 words. If this is required, we will obtain a quote before any work is carried out.
- Independent expert reports e.g. medical experts. These are not required in many cases: we will let you know as soon as possible if we consider an expert report is necessary.
- Property Assessment Report (if required) to detail that the accommodation available for the applicant is adequate. This varies between estate agents from £75 to £120.
- Land Registry Fees - to obtain a copy of the title to a property to prove ownership (if required) is £3 per property.
